Subject: Re: Nutrient Work Group Memo

The collection system reserve, especially for the less than 1 mgd group, is underestimated. In many cases, it could approach 1 percent of MHI or more. I also thought we agreed that 3 mg/l was to low for the greater than 1 mgd group.

I thought at our last meeting we had agreed on the minimum number being >4 to 7 mg TN/L.

≥1MGD discharge category: In the range of >3 to 7 mg TN/L, and >0.1 to 0.4 mg TP/L.

Good Afternoon-

Please find attached the draft Nutrient Work Group subcommittee memo covering the topics and findings for the five meetings we had, which you participated in. Please review the memo and provide edits and feedback to Michael Suplee at msuplee@mt.gov by COB Friday, March 17th, 2017. In this way, the memo will be ready for the main Nutrient Work Group meeting on Monday, March 20th.

Thank you-

Timmie
